EUROPEAN SOUND, MADE BY SCHIMMEL

Schimmel grand and upright pianos are handcrafted according to a tradition of craftsmanship handed down over generations – with loving attention to every detail. This requires time, patience and a real empathy for the craft. The experienced Schimmel craftsmen are responsible for the „Wilhelm Schimmel“ brand being a guarantee of European sound and craftsmanship which allows the pianists an especially enjoyable playing experience.

THE GRAND FOR CHAMBER MUSIC

The mid-sized Wilhelm grand piano follows the lead of European craftsmanship in piano making. This Schimmel designed instrument, manufactured by traditional European methods; solid workmanship, an exquisite choice of materials and experienced piano craftsmen guarantees a truly European sound experience.

THE SALON GRAND PIANO

Simple elegance and traditional piano manufacturing meet in our small Wilhelm grand piano. A wonderful symbiosis which allows a musical experience for all the senses. Something you can see and hear. 

OUR LARGEST WILHELM UPRIGHT PIANO

The large Wilhelm upright piano embodies the great European tradition in piano craftsmanship. Playing experience, sound and durability make sure that it will find enthusiasm for beginners as well as advanced musicians – at home or in many educational institutions.

OUR MID-SIZED WILHELM UPRIGHT PIANO

The mid-sized Wilhelm upright piano is a perfect all-rounder for any occasion. It does not only include a successful sound volume, it fits harmoniously into any environment. A great eye-catcher that brings joy of playing every single day.

OUR SMALLEST WILHELM UPRIGHT PIANO

Music-making is far more than merely hitting the correct note: it broadens horizons, awakes emotions and creates new opportunities for self-expression. Traditional look, solid workmanship, European sound. This is your entry into the world of European piano music!

PURE NOSTALGIA

Since the nineteen-fifties the so-called „Kleinklavier“ [small piano] has left its mark for decades in the world of acoustic pianos. Not demanding in space, however strong in tone and sound and combined with a cabinet style so typical for its time, this piano has enchanted a whole generation. 

FOUR GENERATIONS – ONE PASSION

In the year 1885 the first Schimmel piano was born. It was built by Wilhelm Schimmel in a small workshop in Leipzig, Germany. His philosophies „Quality will prevail“ and „Solid workmanship is the best patent“ are the foundation for the outstanding quality of his instruments. Combining these qualities with the family's inventive genius, Schimmel instruments hit the taste of times. Especially the successful design of the „Kleinklavier“ [small piano] in the 30's establishes the fast growth of the company and Schimmel soon becomes the largest German piano manufacturer. The „Kleinklavier“ is an innovative and intelligent design which allowed modern and advanced manufacturing processes for the time resulting in an unbeaten cost-benefit-ratio/performance-price-ratio to this day. This enables Schimmel to offer quality instruments to a broad variety of pianists for an affordable price. An ideal pre-requisite to learning how to play the piano. „Quality prevails“: Today, under the family management of the fourth generation, the high quality of Schimmel grand and upright pianos made in Braunschweig | Germany gain worldwide recognition. It has always been an important responsibility for Schimmel to offer quality instruments to the young, growing pianists at an affordable and fair price. In following this task and in acknowledging the founder Wihlem Schimmel, Schimmel is manufacturing again today affordable quality pianos under the „Wilhelm“ brand. Based on the contemporary and innovative Schimmel designs and manufactured in a Schimmel-owned facility in Europe, it is made possible to offer a quality instrument „made in Europe“ at an excellent price. Right from the beginning, the young player is able to experience the vast musical variety of the instrument and to experience and to learn about the musical touch and tone. This series will be a companion from the start and much further.
